Viessmann enlists HTS for commercial heating systems sales in Ontario

Viessmann Manufacturing Company Inc. is proud to announce an agreement with HTS to act as the company's commercial sales representative in the Province of Ontario for its commercial hydronic heating systems, effective July 4, 2016.

HTS possesses an impressive array of knowledge, expertise and experience and will be able to offer our commercial customers an end-to-end solution, including professional consultation, hands-on project management, as well as post-purchase service and support.

Viessmann has an established reputation for product quality, performance and innovation, as well as product support and service. With the introduction of large commercial gas-fired condensing boilers, HTS is the perfect market partner for Ontario.

About HTS

Headquartered in Toronto, Ontario, Canada, HTS is one of the largest independent built-to-order commercial and industrial HVAC solutions providers in North America. With 7 offices and over 350 employees in Ontario including a team of 50 factory trained and certified technicians, HTS is uniquely positioned to support and expand our commercial systems business in this key market.

About Viessmann

The Viessmann Group is one of the world's leading manufacturers of heating and renewable energy systems. Family-owned since 1917, Viessmann has set standards and continues to do so with innovative heating solutions that provide ultimate comfort, conserve energy and keep environmental impact to a minimum. The group today employs over 11,500 employees worldwide and has a turnover of approx. 2.2 billion Euro, 22 manufacturing facilities in 11 countries, sales & distribution facilities in Germany and 74 other countries, and 120 sales offices worldwide provide customer proximity and a strong global presence.
