Viessmann Canada's 2018 Ride for Comfort raises over \$25,000 for STARS Air Ambulance

Viessmann Canada is very pleased to announce that our *2018 Ride for Comfort* charity motorcycle ride was a tremendous success, raising over \$25,000 in support of STARS Air Ambulance of Calgary, Alberta.

While Viessmann is engaged in the business of home heating comfort, the term comfort can take on many different aspects of life, such as knowing that help is on the way in the fastest way possible.

The *Shock Trauma Air Rescue Society* (STARS) is a Canadian non-profit helicopter air ambulance organization funded by individual donors, service groups, corporate donors and government contributions. STARS Air Rescue saves lives through partnership, innovation and leadership. They are

Press Release

dedicated to providing safe, rapid, and highly specialized emergency medical transport for the critically ill and injured.

17 riders departed Calgary on July 19, 2018 on a tour through some of the most picturesque landscapes in western Canada. Stops included Banff, Alberta, as well as numerous locations in eastern and central British Columbia, such as Revelstoke, Kelowna, Oliver, and Cranbrook. Special stops included a visit to Fink Machine for a tour of a Viessmann wood biomass district energy system, as well as a tour of Burrowing Owl Winery in the Okanagan featuring Viessmann solar thermal collectors.

About Viessmann

The Viessmann Group is one of the leading international manufacturers of heating, industrial and refrigeration systems. Founded in 1917, the family business employs approximately 12,000 employees worldwide and maintains 22 production companies in 11 countries, subsidiaries and representatives in 74 countries, and a total of 120 sales offices worldwide. For three generations, Viessmann has been providing comfortable, efficient and environmentally-responsible heating solutions, tailored to the needs of the market. With ongoing research and development and a focus on product innovation, Viessmann has pioneered technologies that have continuously set standards and made the company into a technological innovator and pacesetter of the entire industry.
